I prodotti preventivi Albert André esercitano una compressione leggera, compresa tra gli 8 e i 20 mm Hg in caviglia e progressivamente decrescente verso polpaccio e coscia.

Generano sulla gamba un leggero e piacevole massaggio riposante. Sono particolarmente indicati per il quotidiano sollievo alla stanchezza delle gambe e per la prevenzione delle varici. Sono consigliati anche per problemi di gonfiore e formicolio alle gambe e per chi lavora in piedi.

La linea preventiva è disponibile nei modelli gambaletto, calza, calza autoreggente, collant e collant premaman. Il filato elastico è LYCRA®. Gli articoli sono disponibili nei vari colori moda.

Albert André preventive products exercise a light pressure of 8 to 20 mm Hg on the ankle, progressively decreasing towards the calf and thigh. They generate a light, pleasant and restful massage of the leg and are particularly suitable for everyday relief of tired legs and varicose veins prevention. They are also recommended for problems of swelling and pins-and-needles in the legs and for those who work standing up. The preventive line is available in the knee high stocking, stocking, self-supporting stocking, pantyhose and maternity pantyhose models.

The elastic yarn is LYCRA®. The articles are available in the various fashion colours.
